

Collision Repair magazine's **EVREPAIR** ⚡ **TOUR**

supported by **FIX NETWORK**

AGENDA

Calgary, Alberta—September 27, 2023
The Fix Network Training Centre

David Giles

Cecile Bukmeier

Laura Whittle

Ben Hart

11:00-11:10 Opening Remarks by Allison Rogers, Editor of *Collision Repair* magazine, and Darryl O'Keefe, Senior Vice President - Canada at Fix Network Canada

11:10-11:50 **David Giles, Electric Vehicle Expert,**
PoweredEV Training and Consulting

An overall state of address on the EV industry, demystifying EV repair and speaking to the concerns every collision repair shop has. – **Brought to you by LKQ**

11:50-12:30 **Cecile Bukmeier, NAIT**
Chair of the Northern Alberta Institute of Technology's Autobody Program

There is a paradigm shift in training for EVs. What is going to be necessary, both for your techs and those up and coming, to be prepared for what might show up in your shop tomorrow, or even today?

12:30 - 13:30 Lunch, Show Floor Open

13:30-14:10 **Laura Whittle, Certified Collision Care**
Collision Repair Network Business Support Specialist

Health and safety and safe handling of these vehicles, what you can expect and what you can prepare for, from space necessary to calibration and back again.

14:10-14:50 **Ben Hart, SAIT**
Auto Body Technician/Instructor Southern Alberta Institute of Technology

EVs are not doom and gloom—in fact, you have been basically repairing them for years. Explore the surprising similarities between ICE and EVs, and see how you've been building up to EVs all along.

14:50-1500 Closing Remarks

15:00-16:00 Show Floor Open
